## 2010 SPRING TREE/PLANT, BULB & BIRD SEED SALE!

Back by popular demand! The Hillsborough County Conservation District will be holding its annual spring fundraising program to benefit the educational efforts of HCCD.

This year HCCD is offering top quality varieties of conifers, deciduous trees and fruit trees for homeowners in our County. The plants being offered this year were chosen to weather our climate and, when possible, are native to New England. Bareroot plants are delivered to you in a dormant state and require that they be kept cool, moist, and in relative darkness until they are planted. For best results, you should arrange to plant your purchases within 48 hours of picking them up.

The District has selected some of the most sought after bulbs to offer this season. Varieties of lilies, dahlias, peonies and other unique bulbs in many colors are available. They're all fresh, healthy, top-size bulbs that will add a glorious display of color to your landscape. All bulbs listed are commercially grown and are not collected from the wild.

**NEW in 2010**, HCCD has decided to offer premium bird seed blends from New England Wild Bird Food Company. Choose from a variety of blends that will for sure attract the birds to your property, and keep their bellies full. Also for sale are NH made nesting balls!

All of the proceeds from the sale will benefit conservation efforts in Hillsborough County. Thus, in addition to improving your landscape, **you are helping fund conservation projects in your local community.**

Order forms and plant and flower bulb descriptions are provided in this brochure. Order early as supplies are limited! All orders will be filled as received. Deadline for placing an order is **March 31<sup>st</sup>**. Payment must be included with each order. You may send one check along with multiple order forms if you want to purchase some of each of the offerings. Orders received after the deadline will be filled only if stock is available.

Plants and bulbs will be distributed from the New Boston Fairgrounds on Friday, April 23<sup>rd</sup> and Saturday, April 24<sup>th</sup>. You will be asked to specify the day you wish to pick-up your order on the order form. A postcard will be sent one week prior to the scheduled pick-up date reminding you of your order and your specified pick-up location.

Please share this brochure with anyone who is interested in adding plants to their landscape.
